## WATER THAT'S WORTH SAVORING

### OUR TUSCAN HERITAGE, FROM 1564 TO TODAY

It all began in 1564 at Villa Panna, a summer retreat for the Medici family who led the way for the Italian Renaissance. The Medici discovered the source of Acqua Panna water and consistently transported it 25 miles back to Florence because of the unmistakable taste found nowhere else.

- **THE SPIRIT OF TUSCANY IN A BOTTLE**

Some come for its world-class art, others for its dreamy countryside and rolling hills. From the Romans to the Renaissance, artisans and modern fashion, Tuscany beats with culture at every turn. An extraordinary place steeped in history, Acqua Panna is Tuscany captured in a bottle.
