

# ABOUT EVAMOR WATER

## KNOW. BETTER. WATER.

At **EVAMOR™**, we believe in a better water. As not all bottled waters are the same, we challenge you to rethink and redefine your choices when it comes to water. evamor is an alkaline artesian water, alive with mineral goodness that helps bring balance to your diet.

- **Great Taste And So Much More.** Naturally alkaline artesian water. No harsh filters used. Nothing added or removed. evamor is great-tasting naturally alkaline artesian water that's decidedly smooth and refreshing. But it's more than that. It's alkaline-rich and alive with minerals that neutralize acidity - goodness that helps balance your diet and your life.
- We don't engineer our water with pseudoscience, take it from a municipal source or concern ourselves with modern pollutants. With water that naturally pure, you don't need to add anything. You just bottle it.

REFRESHINGLY  
**SMOOTH**

Since **EVAMOR™** is bottled at the source, the water comes straight up from the artesian aquifer, is filtered 6 times for sediment, is filtered once through a UV light, ozonated (blasting with pure oxygen) at the last second before the cap is applied to the bottled. evamor's great taste comes from the alkaline rich mineral blend infused in the water. The result is a delicious water that's decidedly smooth in taste.

Alkaline-rich and alive with minerals, **EVAMOR™** water is a great tasting, all-natural artesian water that helps promote a better you.

Naturally filtered and pure, perfected in a rare naturally alkaline artesian aquifer that's protected miles below the ground. Over thousands of years, mineral deposits in the aquifer have given the water its high alkalinity. Straight from the aquifer it flows, where it's captured and bottled right at the source, here in the USA.

## VARIETIES

EVAMOR WATER 24/20 OZ BTL 

EVAMOR WATER 12/32 OZ BTL 

EVAMOR WATER 8/64OZ BTL 

EVAMOR WATER 2/4/64OZ BTL
